Narcotics:

25X1

- A working lunch was held on 5 June with the NIO/Narcotics, the A/NIO, and Chairman of the Narcotics Working Group, to discuss the final report which is due by 30 September. Dave Gries, NIO/Narcotics, reviewed some of the outstanding issues relating to the report and the meeting ended on a cordial note of agreement as regards to the working group's timetable for the completion of its work.
- We also reviewed the question of US SOUTHCOM's narcotics collection capabilities and a decision was reached to invite a representative from SOUTHCOM to brief a "core" intelligence group (CIA, DIA, NSA, State and the NIO/Narcotics) on 13 June concerning SOUTHCOM's current and/or projected role in the narcotics control effort.

- The revised draft of the working group's report was circulated for quick review and comment among key members of the group. The comments received have been incorporated in the draft. So far, the reception has been favorable, and the comments minor. The revised draft will be distributed to the full membership of the working group shortly for a thorough critique. The group will meet on 19 June to discuss members' comments.
- Although the report still has a few rough passages that will need to be smoothed out, the revised draft is very near to becoming a final product.

- The NSDD-138 draft response which was to have been submitted by 7 June to the NSPG has received another six-day grace period. A memorandum from Admiral Poindexter to members of the Terrorist Incident Working Group advised that the "... President has agreed that submissions to the White House may be delayed until 30 June." It went on, however, to admonish that, "All departments will ensure that draft inputs are completed by the time of the June 15 [TIWG] meeting." Consequently, we are now operating under a 13 June suspense, as arranged by [redacted]
